# Values

# Important to us

**Respect and tolerance to all:** no one person is the same and we have to understand that so everyone can live happy and peacefully.

**Adaptability and ability to learn:** no one knows everything and we can learn from the world and people around us every day.

**Relaxation and knowing when to stop:** we can't be our best selves if we do not give ourselves time to rest.

**We are the same, but different:** we all feel, experience, hurt and love but in our own ways. We must respect that.

Things are harder if you don't work together

---

We need to look after each other so we can learn our best

---

Our community includes everyone and we don't exclude anyone because of different skin colour, gender, language or religion

---

We need to be kind to people in our community, like Immi is (Immi is the book we are currently reading, which involves acts of kindness)

---

Celebrate and respect everyone's differences in our community
