Eco Afternoon - Friday 17th of May 2024

Dear Parents and Carers,

This year through our eco-schools programme, the children have chosen three key areas to focus on for our school's journey to becoming greener: litter, energy and biodiversity. We chose these through a whole school vote.

*I am very excited to say that we are having an eco-afternoon on **Friday the 17th of May**. Across the afternoon, we will be focusing on biodiversity and litter. We will make classroom window displays about litter using recycling! Each year group will also be replanting an area of our school grounds or planting seeds in their classes.*

This is where you, as our lovely parents and carers, come in! We would like all the children to be able to take part in planting and digging so if you are able to donate any of the following, please let your child's class teacher know:

- **Seeds**
- **Plants**

We would also like to invite you at the end of the school day to come and take a look at what we have created during our eco day!

The school gates will stay open for an extra 20mins for you to have a look around our replanted grounds and our amazing eco-window displays!

Best wishes,
Miss Wilsher
(Eco-Schools Lead)
